# RADHIKA BHEDURKAR

+91-8605203283 | radhikabhedurkar18@gmail.com | LinkedIn | GitHub

## Career objective

Detail-oriented BCA graduate and Data Enthusiast with hands-on project experience in data analytics. Strong analytical and problem-solving abilities, passionate about generating actionable insights. Seeking an entry-level Data Analyst and Data Scientist role to support data-driven decisions.

## Skills

**Programming & Databases:** Python (Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn), SQL (MySQL, PostgreSQL), Advanced Excel (Pivot Tables, VLOOKUP/XLOOKUP, Power Pivot, Conditional Formatting)
**Data Analytics & Visualization:** Data Cleaning, EDA, Statistical Analysis, Data Visualization, KPI Analysis, Dashboard Development, Power BI (DAX, Power Query), Tableau
**Machine Learning:** Supervised & Unsupervised Learning, Regression, Classification, Clustering, Feature Engineering & Selection, Model Training, Cross-Validation, Hyperparameter Tuning, Model Evaluation, Predictive Modeling
**AI & Deep Learning:** NLP, Text Classification, TF-IDF, Neural Networks, Deep Learning, Computer Vision, OpenCV
**Deployment & Tools:** FastAPI, Uvicorn, Streamlit, Git, GitHub, Jupyter Notebook
**Core Skills:** Data Preprocessing, Statistical Modeling, Problem-Solving, Critical Thinking, Insight Generation, Communication.

## Projects

**Mental Health Score Prediction System | Machine Learning | Link** Sep 2026– Oct 2026
– Built an ML application to predict mental health scores using lifestyle, behavioral, and demographic features.
– Developed and integrated a **FastAPI backend with Uvicorn** and an **HTML/CSS frontend** for real-time predictions.
– Implemented data preprocessing, feature engineering, model training, evaluation, and deployment of the trained ML model through a web API.

**Sales Dashboard for Regional Performance | SQL, Power BI | Link** Jan 2026– Feb 2026
– Analyzed 25,000+ sales records across 3 tables, 5 regions, and 12 months using **SQL joins**.
– Developed **interactive Power BI dashboard** with 10 KPIs to monitor sales, returns, and product performance.
– Detected a **14% sales drop** post-festival in the South region. Later, the insight was used for a marketing recovery plan.

**Customer Shopping Behaviour Analysis | Python, SQL, Power BI | Link** Dec 2025 – Jan 2026
– Cleaned and joined 30,000+ customer transaction records using SQL and Python to create analysis-ready datasets.
– Built interactive Power BI dashboard and identified a **12%** drop in repeat purchases, guiding targeted marketing.

## Awards & Certifications

– **Data Science Professional– Oracle (2025):** Completed 8 practical case studies involving SQL, data cleaning, dashboards, presentation, cloud infrastructure, AI-driven analytics and data science concepts.
– **Best Final Year Project– 2025, Regal College:** Built a real-time face recognition attendance solution using OpenCV and Python, reducing manual attendance time and errors.

## Education

Regal College of Technology, Kalyan June 2022 – June 2025
Bachelor of Computer Application (BCA) CGPA: 9.98/10
